Dear, John

My name is Lucas I am a grade 6 student at John Ross Robertson Junior Public School in Toronto. This year my class was assigned to do a project regarding a charity that touched our hearts. I instantly knew I wanted to do CAC. In 2010 my Mom was diagnosed with Cancer and just five years later my grandma. Thanks to you my Mom is happy, safe & healthy. My grandma on the other hand is holding on by a thread and I wanted to show my support. I also LOVE climbing. For this project we had to do a "FUNraiser" along with a poster explaining CAC. For my event I did a huge obstacle course with climbing & climbing exercises because sometimes I wish grandma could have fun like me instead of lying down in bed all day. So I told all about it and said "wanna try one day" she said with a big smile "I wish, honey" it made me so, so, so sad. This charity helped me persevere through some pretty tough times. Please keep helping kids like me through the world wide climbing community. "In life we are all Climbers".

-Lucas
